19" RACK CABINET ACCESSORIES

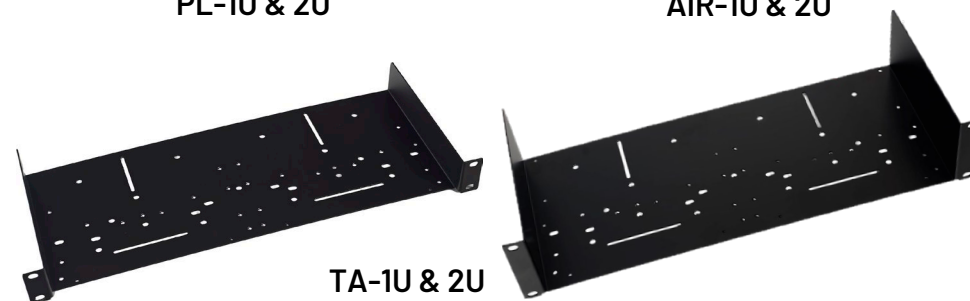

Rack cabinets are truly modular structures, with a wide range of accessories to complete the final rendering and ensure safe, efficient operation of your installed audio equipment. PL-1U and 2U cover panels are perfect for filling unused spaces and protecting rack access, while AIR-1U and 2U ventilation panels provide ventilation and protection for your devices. The DR-2 rack drawer is perfect for storing all your accessories, and the two TA-1U and 2U trays allow you to install and secure all your non-rackable devices.
